NEW HEATING BOILER FOR CHURCH: After 20 years of use the boiler for church has finally given up and we need to invest in a new one for this winter and the years ahead.

People seem to appreciate being warm in church so we hope we can continue to provide the right level of heat without too much cost. However the new boiler and work associated with may be in the region of £35 K rather than £25 due to extra work needed. Collections to contribute to the payment of these costs will start in the Autumn.
